## DESCRIPTION

The Ursuit RDS WE Evo is an updated version of the previous RDS WE immersion suit, engineered to meet the rigorous demands of the offshore industry. Designed for optimal safety, durability, and ease of use, this suit ensures reliable protection in extreme environments.

Crafted from Gore-Tex® Pazifik, the suit offers exceptional breathability while maintaining complete waterproof integrity. The double-seam construction, reinforced with heat-seal tape, ensures 100% watertight performance, even under prolonged wear. Knee and back reinforcements made from durable Cordura® fabric provide enhanced resistance against abrasion in high-stress areas.

New SiTech Koster ring system enables users to swiftly replace TPE wrist seals, ensuring continued performance and adaptability in demanding conditions. 2-way zipper with open collar structure allows quick donning and provides ventilation in warm conditions. The suit is equipped with SOLAS- approved reflectors, integrated 2,5mm neoprene gloves and 2,5mm separate hood. Two chest pockets and two thigh pockets provide secure and accessible storage for essential equipment. Integrated socks made from the same Gore-Tex® Pazifik fabric allow the use of any professional-grade footwear.

Ursuit RDS WE Evo approvals; ISO 15027-1, SOLAS, Red Ensign, CE, UKCA.

With its cutting-edge materials, approvals, and user-centric design, the Ursuit RDS WE Evo is a trusted solution for offshore professionals requiring maximum protection, mobility, and performance in challenging environments.
